WORK PERMIT

CONTROL NO. WP-BAY-2024-0000008612

Valid From: 08/04/2024

Valid Until: 08/11/2024

Kindly present this permit and control number to admin and security.

- 1. Dedicated fire watch personnel must be at job site 30 minutes before and after scheduled hot work.
- 2. At least one (1) 20 lb. ABC fire extinguisher should be available at the work area.
- 3. There should be no combustible materials and if there are, they should be covered with metal sheet or non-combustible cover. Appropriate ventilation should be provided when working with flammable gas.
- 4. The contractor and the Project Engineer/Supervisor shall make sure that there will be no damage to the surrounding area.
- 5. Any damage to the surrounding area caused by negligence shall be charged to the contractor.
- 6. Contractor must clean up the area after work.
- 7. **Hot Work Permit should be filed everyday for the duration of the work.**

TERMS AND CONDITIONS

- 1. All work permits shall be accomplished and submitted one week prior to work commencement, in case of urgent/emergency works; ALMI CE/BE shall have the discretion for approval.
- 2. Workers shall accomplish a “Signed” Job Hazard Analysis (JHA) (under their company logo) that will cover all activities stated in this permit and shall be submitted to the ALMI CE/BE prior to Work/Hotwork Permit application or for urgent cases, prior to the commencement of work. Absence of JHA means non-approval of work mobilization.

ACTIVITY: _____

ACTIVITY/PROCEDURES/STEPS	HAZARDS/IMPACT OF THE PROCEDURE	CONTROL MEASURES to the Implementation for the HAZARD

- 3. All works to be done shall not cause damage to exceed utility capacities of the leased area or building and shall comply with pertinent government and safety regulations in accordance with the ALI/ALMI House Rules and Regulations and Construction Guidelines.
- 4. Painting or spraying shall be done when building is non-operational and air-conditioning is off. The Chief Engineer has the right to confiscate the materials and equipment, which are used for painting or spraying.
- 5. Any work to be done that affects the adjacent tenants / common areas would be subjected for work stoppage.
- 6. If the merchants / workers continue to defy, work stoppage or orders from the CE, ALMI/CE have the right to confiscate materials or equipment to effect the stoppage.
- 7. Tampering of Work Permits without the authorization of CE and other authorized representatives will automatically render the work permit void.
- 8. Damages caused by construction works or any procedures of the like will not render ALI/ALMI liable.
- 9. Any person who shall be caught smoking within the building construction area shall be banned entry to Building and shall be fined as specified on the Construction Guidelines.
- 10. Use of common utility has corresponding charges to be determined by the Chief Engineer.
